- "I wish I had been given this opportunity when I was young!" thoughts of an Employer
- A better understanding of what is required from me as a leader within the company and useful ideas that I can implement in my everyday workplace which can only enhance my workplace.
- I have been given a great opportunity to learn about being a Boss before I became one.
- Increased perception of skills required for leadership. Communication ideas and how to arrange tasks and people to do tasks
- I was given great information on teamwork and leadership skills, motivation, goal setting ideas, problem solving, thinking outside of the square.
- An enhancement of one leader within the organisation in turn the knowledge can be passed along to benefit more leaders/ potential leaders/management. I found nearly every single topic will be relevant and I will be able to apply the lessons learned.
- I will take with me additional skills in leadership and team work back to my workplace as well as a lot of happy memories.
